Materials: Beechwood and Metal

Features & Benefits: Definition of elegance : tasteful richness of design or ornamentation. Simple, refined, yet robust; the Elegant Table collection design is hallmarked by a gentle sloped table edge profile and a synched metal column tapering ever so slightly up to the 1.5" thickness solid Beech wood top. The metal accents our wood finishes with either Black+Brass or Chrome finish. The contrasting elements shapes turn an otherwise simple design into an piece intriguing to the eye.
