

Durable Modern Acoustics

Designed specifically for commercial contract and university environments, the Finn thermoformed panel offers a lightweight yet durable solution that's both functional and aesthetically pleasing. Available in two widths, the panel features a polyester fiber fabric that comes in a variety of color options, allowing for customization to fit diverse interior designs and branding needs. Ideal for use in collaborative spaces, classrooms, and lounges, the Finn panel not only enhances acoustics but also adds a modern touch to any setting.
